

# KOROZO

## QUALITY POLICY

---

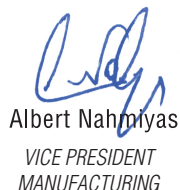

KOROZO A.S. specified its quality policy with an idea taking the continuance of the concept of “KOROZO IS QUALITY” as follows:

- **Determining the needs of customers correctly and providing the highest level of customer satisfaction by meeting such needs and expectations,**
- **Ensuring our employees to take responsibility for our specified quality targets and having the active participation of our employees for such activities, maintaining persistence in trainings by means of a concept of “Individual Creating Differences”, providing opportunities for our employees to develop themselves, and evaluate any kind of proposals,**
- **Maintaining our leadership in Domestic market by using the facilities of high technology and constantly performing research and development studies in order to produce products in compliance with use and hygienic rules for providing the highest level of customer satisfaction,**
- **Performing our activities in a well-planned way by means of team-work with the concept of “Quality is everybody’s concern” in order to provide continuity of our quality system,**
- **Developing our processes constantly with the participation of all departments and a continuous optimizing concept,**
- **Working in collaboration with sub-industries sharing the same culture with us about quality system and product development.**
- **Working in collaboration with relevant national, international laws and regulations.**
